

I have known Mike for several years.  
as a friend. I began to have back  
problems due to my work which requires  
a lot of leaning. So I approached  
Mike about treatment as pain killers  
where of little help after only  
a few sessions I was completely  
pain free since then I've followed  
his advice about prevention and  
now I'm fine

I've since been back for  
help with other things and he's  
always ready to help

THANKS

Mike
